

New to federal. Not new to the work.

ALC Innovations builds websites, mobile apps, AI tools, and business automation for commercial clients. **Registered, small, and looking for a first federal task order.**

TRACK RECORD

DELIVERED

COMMERCIAL CLIENTS, BOTH REFERENCEABLE

Real clients, real outcomes. Commercial rather than federal — and every client we've had will take a reference call.

WHAT WE'VE BUILT		COMMERCIAL ENGAGEMENTS
Bodytek JAN 2024 - APR 2025	Built a mobile app with an in-app AI chatbot, plus the company website, AI-driven automations, and ongoing IT support.	FLUTTER · AI CHATBOT · AUTOMATION
Pure Mist Disinfection Services JUL 2026 - CURRENT	Built the company website and an outbound marketing platform for lead capture and follow-up.	WEB · EMAIL AUTOMATION

STRAIGHT ANSWERS

Federal past performance?	None yet — we're new to federal and won't dress that up. Commercial references cover everything we've delivered , and you can call any of them.
Do you hold a clearance?	Not today, and no facility clearance either. If a role needs one, sponsor it or point us at unclassified scope — plenty of work doesn't need it.
So why take the risk?	Start us on one small task order. Bounded scope, bounded risk. If it goes well you've found a small-business sub who answers the phone.

Need a small business on your next bid?

The whole ask is a spot on your vendor list. If you already have a scope that needs covering, send it — I'll tell you honestly whether we can do it, including when the answer is no.
